Justin Faithfull of Faithfull Classics is now supplying a range of mainly pre – war (W.W.2.) veteran, vintage & classic reproduction & copy motor cycle literature.

Including sales catalogues, spares lists, advertising brochures, hand books, manuals, technical information & much more.

Our copies are taken from original literature whenever possible, which is scanned into a computer for cleaning up as necessary. They are then printed to emulate the originals in colour & layout as closely as is reasonably possible. Since many originals were printed on odd or obsolete paper sizes, many have been resized & often enlarged to fit onto modern paper sizes. Some literature that was originally in poster or fold out leaflet style has been has now been reproduced in book or booklet form.

It is our plan to keep adding more literature as we obtain samples to work from, & we will be at a number of shows & autojumbles throughout the year.

Price: - £8.00 + p. & p.

Wooler Flat Four 498cc Instruction Book.

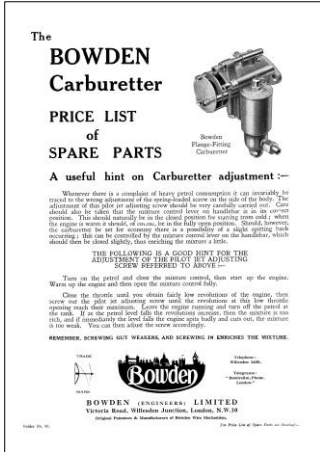

This is a good quality copy of the Wooler 498cc Flat Four motor cycle instruction book of the 1950's. This is quite a rare book for an even rarer motor cycle, & contains a fair amount of information with illustrations.

This A5 size instruction book is laser printed with 40 sides in black & white (black & orange cover) on 100 gram paper inside, with 160 gram cardstock cover & stapled into a booklet.

Price: - £10.00 + p. & p.

Spare Lists.

Bowden Carburettor Price List of Spare parts leaflet.

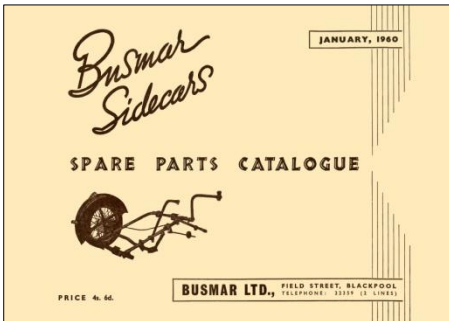

A fine quality reproduction of a Bowden Carburettor spare parts list. This leaflet features 2 plates of pictures showing the carburettor parts laid out in their order of assembly. Also there are line drawings of the carburettor from different angles with a table of dimensions. All parts are listed with their contemporary prices.

Laser printed on folded A3 100 gram paper giving 4 A4 sides in black & white which are inkjet printed on 100 gram paper.

Price: - £2.00 + p & p.

1960 Busmar Sidecars Spare Parts Catalogue

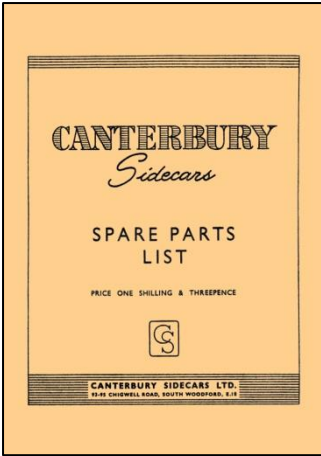

A fine quality reproduction of a 1960 Busmar Sidecars spare parts catalogue. This spares list is well illustrated with parts listing for the chassis, hubs, wheels & fittings etc., but no sidecar bodies are listed.

This catalogue has fourteen A4 size laser printed sides in black

& white (black & cream cover). 100 gram paper for the inside pages, 160 gram card for the covers & a comb binding with outer protective plastic covers.

Price: - £14.00 + p. & p.

1947 – 1954 Canterbury Sidecars Spare Parts List.

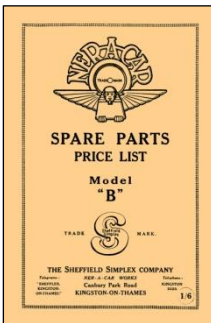

Good quality reproduction of a Canterbury Sidecars Spare Parts List. Covering GMC/3, GMC/6 & GMC/7 chassis, with the three chassis illustrated & part numbered; body accessories, wheel accessories & fitting (sidecar chassis to machine).

Laser printed with 13 A4 sides on A4 100 gram paper inside in black & white, 160 gram cardstock covers in black & beige, with outer plastic covers & a comb binding.

Price: - £12.00 + p. & p.

Ner-a-Car Model B Spare Parts Book.

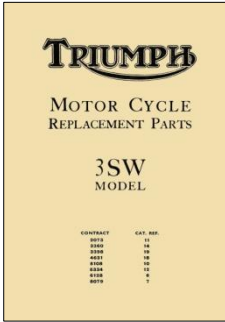

This is a quality reproduction of the Spare Parts list for a Model B Ner-a-Car. This book is well illustrated, with parts listed with their contemporary prices.

Laser printed with 55 A5 size sides in black & white (black & cream cover) on 100 gram paper inside, 160 gram card cover & stapled into a booklet.

Price: - £10.00 + p. & p.

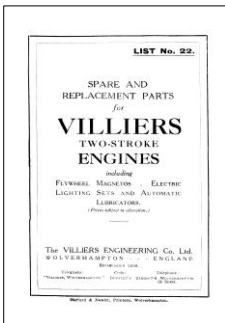

Triumph 3SW 350cc SV Replacement Parts.

This is a complete parts list for the Triumph model 3SW 350cc SV motor cycle, with one illustration of a cutaway view of the 3SW engine. Laser printed A5 size, with 20 sides in black & white (black & cream cover) on 100 gram paper inside, 160 gram cardstock cover & stapled into a booklet.

Price: - £8.00 + p. & p.

Villiers Two Stroke Engine Spares & Replacement Parts – List 22.

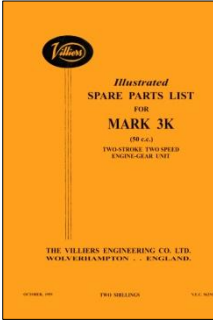

A good reproduction of (circa mid-1930's) Villiers spares & replacement parts for 2 stroke engines - List 22. This is a comprehensive illustrated parts book, covering many different models of Villiers engines from the Mark I of 1913 up to the Mark XVIIIB of 1934. A very valuable reference.

Laser printed in A5 size with 31 sides in black & white on 100 gram paper inside, plus 160 gram cardstock covers & stapled into a booklet.

Price: - £8.00 + p. & p.

1959 Villiers Mark 3K Illustrated Spare Parts List.

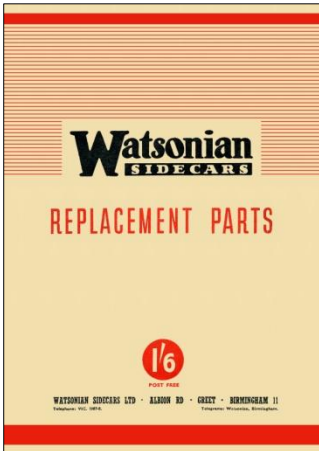

A good quality reproduction of a Villiers Mark 3K Illustrated Spare Parts List. This book covers the replacement parts for the 50cc two stroke two speed engine gear unit with good illustrations (including a double page exploded drawing of the complete unit). There is also a useful table giving technical specifications of the engine gear unit.

There are 16 A5 size sides laser printed in black & white (black & orange cover), on 100 gram paper inside, 160 gram cardstock cover & stapled into a booklet form.

Price: - £6.00 + p. & p.

1949 Watsonian Sidecars Replacements Parts catalogue.

A fine quality reproduction of a 1949 Watsonian Sidecars Replacement Parts catalogue. This illustrated catalogue covers the following chassis types: - X21, V21, V23, J21, J23, G22, G30, VG21 & VG 26; plus motorcycle frame fittings & chassis attachments, hoods, windscreen & body fittings. Extremely useful if you need information on a Watsonian sidecar chassis.

Note this catalogue does not cover Watsonian sidecar bodies.

This A4 size catalogue is laser printed in black, white & red, with black, cream & red covers. There are 23 sides, with 100 gram paper for the inside, 160 gram cardstock for the covers & a comb binding with outer plastic protective covers.

Price: - £14.00 + p. & p.

1952 Watsonian Sidecars Replacement Parts catalogue.

A good quality copy reproduced of a Watsonian Sidecars replacement chassis parts brochure. This parts book covers the VG21 chassis, the modified VG21 chassis & the VG26 chassis, complete with illustrations. There are also instructions for fitting the chassis to a motor cycle, as well as notes on chassis maintenance.

Note this catalogue does not cover Watsonian sidecar bodies.

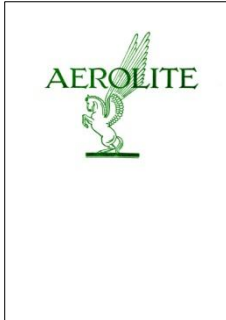

This A4 size parts catalogue is laser printed in black, white & red with 11 sides on 100 gram paper inside, covers on

160 gram cardstock, with comb binding & outer plastic covers.

Price: - £12.00 + p. & p.

Technical Literature

1936 Aerolite Pistons.

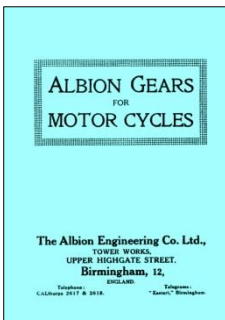

This is a good quality reproduction of a 1936 Aerolite Piston brochure. The brochure talks about Aerolite pistons (produced by 'The Light Production Company'), their design, manufacture & inspection.

This A5 size brochure has 20 sides laser printed in blue, black & white (green & white covers), on 100 gram paper for the inside pages, with 160 gram card for the covers & is stapled into a

booklet.

Price: - £6.00 + p. & p.

Albion Gearboxes for Motor Cycles.

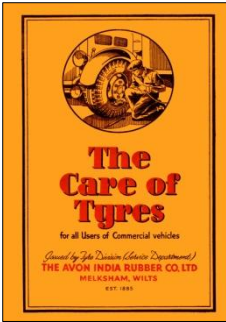

This is a good quality reproduction of a Albion Gearbox catalogue (circa 1930). The catalogue shows a range of 9 gearboxes for motor cycles from lightweights to heavyweights with 8 illustrations.

This catalogue is A4 size with 21 sides in black & white (black & blue cover), laser printed on 100 gram paper inside, 160 gram card covers, & stapled into a booklet.

Price: - £8.00 + p. & p.

The Care of Tyres (Avon).

This is a good quality reproduction of a (circa 1947) Avon Tyre Care brochure. The illustrated brochure covers aspects of tyre care such as inflation problems, different types of tyre damage, overloading and other issues affecting the safe use of tyres.

This A5 size brochure has 26 sides, laser printed in black, white & red (black, red & orange covers), on 100 gram paper inside, with 160 gram card covers & stapled into a booklet.

Price: - £6.00 + p. & p.

Bowden Carburettor Tuning leaflet.

The Bowden Carburettor
Its Principle and Working
Described

USEFUL HINTS & TIPS ON TUNING

NO motor car manufacturer would dream of fitting a semi-automatic carburettor on his car, why, therefore, should not motor cycles be fitted with an entirely automatic carburettor?

There is then no necessity to operate the usual air lever when negotiating a steep hill or prevent pinking on the weak mixture delivered by the semi-automatic instrument in the correct mixture with the automatic carburettor.

Standard Model

Sports Model

The Principle of the Bowden Carburettor

A THOROUGHLY scientific Bowden Carburettor Air is obtained by means of a calibrated jet combined with two air injections in series, taking place at different engine speeds.

It is well known that a calibrated jet subjected to a variable suction, will not, under various conditions of depression, deliver a proportionate weight of petrol in the weight of air passing through the choke tube. If, for example, such an arrangement is used to provide a correct mixture at high engine revolutions, the mixture supplied at lower engine revolutions will be weak and cause "pinking".

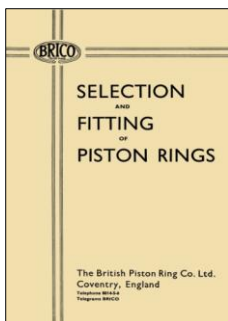

This is automatically corrected in the Bowden Carburettor and the mixture is correct under all running conditions.

A good quality reproduction of a Bowden Carburettor Tuning leaflet. This describes the working of the Bowden Carburettor, & how to set up & tune the instrument, complete with illustrations. Very useful information on quite a rare carburettor.

Laser printed on folded A3 100 gram paper giving 4 A4 sides in black & white which is inkjet printed on 100 gram paper.

Price: - £2.00 + p. & p.

Brico Piston Rings.

A good quality reproduction. Brico - Selection & Fitting of Piston Rings (published by The British Piston Ring Co. Ltd.). This illustrated book explains the technicalities of piston rings including sizing, clearances, defects, wear & oil consumption; as well as Brico's different types of rings.

This is laser printed in A4 size with 17 sides in black & white (black & cream cover) on 100 gram paper for the inside pages, 160 gram cardstock for the covers & stapled into a booklet.

Price: - £6.00 + p. + p.

1936 Cygnet Piston Rings.

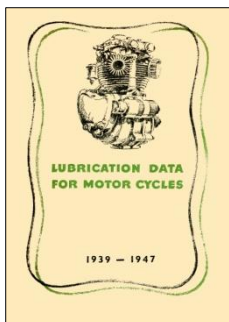

This is a good quality reproduction of 1936 Cygnet Piston brochure. This illustrated brochure explains the design & production of piston rings by the 'Light Production Company' (manufacturers of Cygnet piston rings). It also talks about the different types of rings.

This A5 size brochure has 10 sides in black, white & red (black, white, blue & red cover) laser printed on 100 gram paper inside, with 160 gram card covers & stapled into a booklet form.

Price: - £6.00 + p. & p.

Lubrication Data for Motorcycles 1939 – 1947 (Castrol).

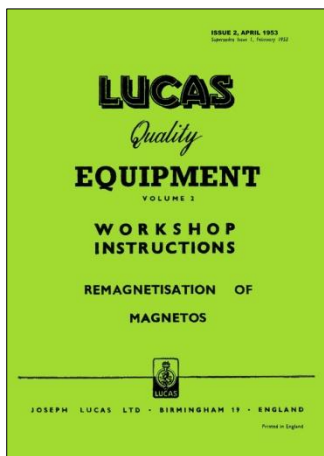

A good quality reproduction of 'Lubrication Data for Motor Cycles 1939-1947' (published by C. C. Wakefield & Co. Ltd. - Castrol oils, in July 1947). This book contains details for British motor cycle lubrication systems; such as 4 strokes, 2 stroke mixes, oil & grease types, simple system descriptions, oil change routines & maintenance, pump types, etc., as well as some good illustrations. An extremely interesting piece

of reference literature.

This is laser printed, has 39 A5 size sides in black, white & green (black, cream & green cover) on 100 gram paper for the inside pages, 160 gram cardstock for the covers & is stapled into a booklet.

Price: - £8.00 + p. & p.

Lucas Workshop Instructions – Remagnetisation of Magnetos.

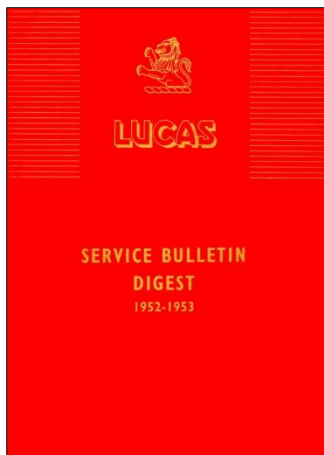

Reproduction of a Lucas Workshop Instruction manual (1953 issue 2) for the Remagnetisation of Magnetos. Very useful for anyone wanting to do their own remagnetising, or wanting to know how it is done. Contains diagrams & dimensions for the iron blocks needed for remagnetising different models of magnetos

This book has 8 A4 size sides laser printed in black & white (black & green cover) onto 100 gram paper for the inside pages, with the covers of 160 gram

cardstock & comb bound with outer plastic covers.

Price: - £12.00 + p. & p.

Lucas Service Bulletin Digest 1952 – 1953.

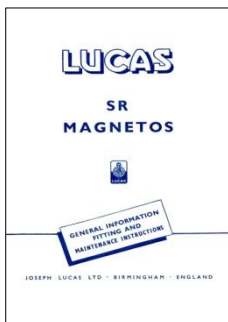

Copied from an original, this is a good quality reproduction of 'Lucas Service Bulletin Digest 1952 - 1953. This book is full of valuable service notes & amendments covering: - Accessories (horns, relays, trafficators & wipers); Batteries; Generators (D.C. & A.C.); Ignition (distributors, magnetos & suppression); Lamps; Regulators; Starting Motors; Switches; & Miscellaneous. The vehicles covered include motor cycles, cars, commercials & tractors. An extremely important & valuable

information resource.

This A4 size book is laser printed with 48 sides in black, white & green (red & gold cover), on 100 gram paper inside, with cardstock 160 gram covers, outer plastic covers & a comb binding.

Price: - £18.00 + p. & p.

Lucas SR Magnetos.

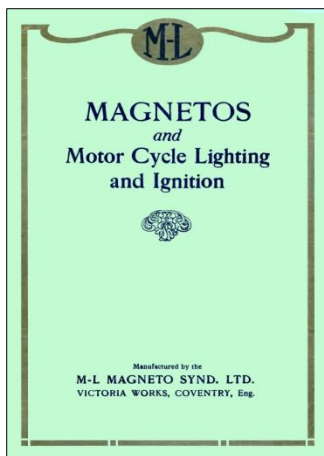

A good quality reproduction. This is a general information, fitting & maintenance instruction book for Lucas SR Magnetos. Very useful to anyone running a motorcycle fitted with an SR magneto, or having one on another type of engine, or anyone just requiring reference material.

Laser printed with 13 A5 sides in blue & white, on 100 gram paper for the inside pages, 160 gram cardstock for the covers & stapled into a booklet.

Price: - £6.00 + p. & p.

ML Magnetos & Motor Cycle Lighting & Ignition.

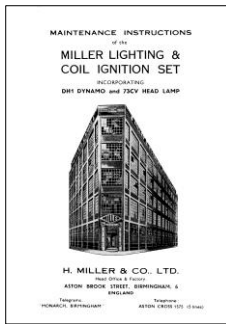

A good quality reproduction of 'M-L Magnetos and Motor Cycle Lighting and Ignition'. This is a catalogue of M-L magnetos, & it covers the following models: - type N; types CM1 & CM2 (B.E.S. type M); types CMK1 & CMK2 (B.E.S. type K); types MC1 & MC2 (B.E.S. type M); types MCK1 & MCK2 (B.E.S. Type K); types CK1, CK2 & CKV (B.E.S. type K); type CKS; types CG4 & CG6 with distributors (B.E.S. type G) - base mounted; types CG4 & CG6 with distributors (B.E.S. type G) -

flange mounted. It also covers types E & F Maglita combined lighting / ignition units, & the type H magneto generator unit. Although this material is undated, it appears to be from a period immediately following World War 1. This catalogue is well illustrated.

This book is laser printed in A4 size with 13 sides in black & white (black, blue & green cover), on 100 gram paper inside, cardstock covers of 160 gram & is comb bound with protective outer plastic covers.

Price: - £12.00 + p. & p.

Miller Lighting & Coil Ignition Set (DH1 & 73CV Head Lamp).

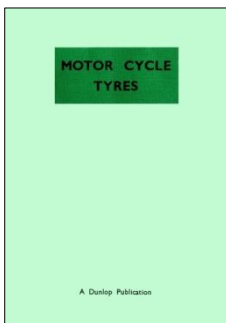

A good quality reproduction of a Miller instruction brochure for a Lighting & Coil Ignition Set. This illustrated brochure covers the Miller DH1 Dynamo, together with 73CV & 93CV Headlamps, covering dismantling, assembly, tests, repairs & setup.

This A5 size brochure has 14 sides laser printed on 100 gram paper inside, with 160 gram cardstock covers & is stapled into a booklet

form.

Price: - £6.00 + p. & p.

Motor Cycle Tyres (Dunlop).

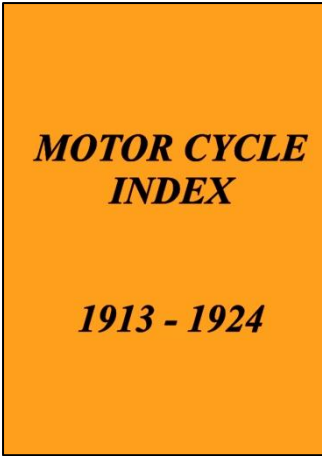

A good quality reproduction of a brochure called 'Motor Cycle Tyres' published by Dunlop in October 1933. This brochure covers a wide range of tyre information, including pressure, load, types of damage & failure, mileage, fitting instructions & more, & is well illustrated.

The brochure is laser printed with 38 A5 size sides in green, black & white (two tone green & black cover), on 100 gram paper, plus covers of

160 gram cardstock & stapled into a booklet.

Price: - £6.00 + p. & p.

1913 – 1924 Fletchers Motor Cycle Index (specifications & data on the world's motor cycles).

This is a good quality reproduction of the 'Fletchers Motor Cycle Index 1913 - 1924', & is an alphabetical list of motor cycles manufactured between those two dates. The book covers not only mainly British motor cycles, but some American & continental makes as well. It lists the various makes, their models & specifications.

An extremely rich resource for information & research.

Laser printed in black & white (orange & black cover) A4 size, with 107 sides on

100 gram paper for the inside pages, 160 gram card covers with outer plastic covers & comb bound.

Price: - £45.00 + p. & p.

1962 SKF Motor Cycle Bearing Data.

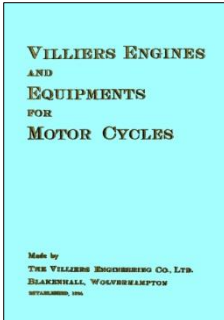

This is a good quality reproduction of a 1962 SKF Motor Cycle Bearing Data Book. This book provides bearing details from 1945 onwards for mopeds, motor cycles, engines, scooters, sidecars & 3 wheelers. A very good reference source for restorers & mechanics.

This A4 size book has 41 sides, laser printed on 100 gram paper for the inside pages, with 160 gram card covers, comb binding & protected by plastic outer covers.

Price: - £18.00 + p. & p.

Villiers Engines & Equipments for Motor Cycles.

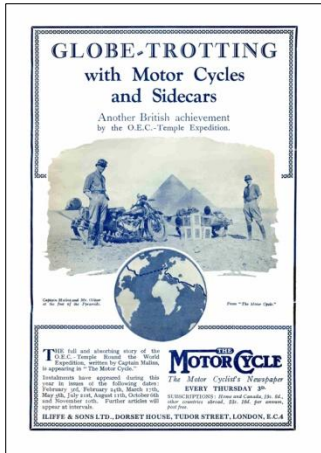

This fine reprint is of Villiers Engines and Equipments for Motor Cycles, & covers their range of engines & ancillaries for motorcycles as well as for lawnmowers & other items, with descriptions, drawings & illustrations. The period covered seems to be the 1920's, & the engines covered are the 1 1/2 H.P. Mark VI.C, the 2 1/2 H.P. Mark VI.A & the 3 1/2 H.P. Mark VI.B.

Laser printed in A5 size with 160 gram blue & black cardstock covers & 100 gram black & white pages inside. Stapled into a booklet with 30 printed sides (inc. covers).

Price: - £10.00 + p. & p.

General Literature

1927 OEC World Tour brochure.

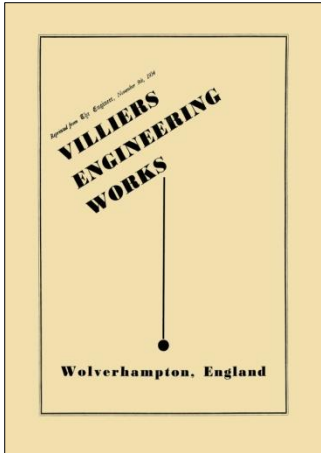

This is a good quality reproduction of a brochure published by C. F. Temple & Co. Ltd. Titled 'Globe - Trotting with Motor Cycles and Sidecars. Another British achievement by the O.E.C. Temple Expedition'; this brochure with illustrations, gives a synopsis of an expedition, which took place from late 1926 to late 1927. The full story of this adventure was serialised in 'The Motor Cycle' magazine of the period. There are a number of period advertisements from suppliers & sponsors of the expedition,

creating an interesting piece of motor cycling history.

This brochure is laser printed with 12 A4 sides in black & white (blue & white cover), with inside pages on 100 gram paper, covers printed on 160 gram cardstock & comb bound between plastic covers.

Price: - £10.00 + p. & p.

1934 Villiers Engineering Works (a look at Villiers).

This is a good quality reproduction of a 1934 'Villiers Engineering Works' brochure originally produced by Villiers, which in turn was taken from an article originally published in "The Engineer". This illustrated brochure shows various aspects of the Villiers works & some of their period engines, & should appeal to anyone interested in Villiers, engineering in general or industrial history from the mid 1930's.

This catalogue has 9 A4 size laser printed sides in black & white (black & cream cover) on 100 gram paper inside, with 160 gram card covers, is comb bound & protected by plastic outer covers.

Price: - £8.00 + p. & p.
